3. HAZARDS IDENTIFICATION

Emergency Overview

Appearance

Form liquid clear

Colour Colorless to light purple

Odour Mild odor
Hazard Summary

CAUTION!
INHALATION OF VAPOR OR MIST CAN CAUSE HEADACHE, NAUSEA AND IRRITATION OF THE NOSE, THROAT AND LUNGS. MAY CAUSE EYE AND SKIN IRRITATION.

Potential Health Effects

Primary Routes of Entry:
- Inhalation
- Eye contact
- Skin contact

Eyes: Direct contact with material can cause the following:
slight irritation

Skin: Prolonged or repeated skin contact can cause the following:
slight irritation

Inhalation: Inhalation of vapor or mist can cause the following:
irritation of nose, throat, and lungs
Headache
Nausea

4. FIRST AID MEASURES

Inhalation: Move to fresh air.

Skin contact: Wash with water and soap as a precaution. If skin irritation persists, call a physician.

Eye contact: Rinse with plenty of water. If eye irritation persists, consult a specialist.

Ingestion: Drink 1 or 2 glasses of water. Consult a physician if necessary. Never give anything by mouth to an unconscious person.

5. FIREFIGHTING MEASURES

Flash point: Noncombustible
Ignition temperature: Not Applicable
Lower explosion limit: Not Applicable
Upper explosion limit: Not Applicable

Suitable extinguishing media: Use extinguishing media appropriate for surrounding fire.

Specific hazards during firefighting: Material can splatter above 100C/212F. Dried product can burn.

Special protective equipment for firefighters: Wear self-contained breathing apparatus and protective suit.
6. ACCIDENTAL RELEASE MEASURES

Personal precautions
Use personal protective equipment. Keep people away from and upwind of spill/leak. Material can create slippery conditions.

Environmental precautions
CAUTION: Keep spills of product as supplied out of municipal sewers and open bodies of water. Do not discharge cleaning runoffs directly to open bodies of water.

Methods for cleaning up
Contain spills immediately with inert materials (e.g., sand, earth). Transfer liquids and solid diking material to separate suitable containers for recovery or disposal.

7. HANDLING AND STORAGE

Handling
Avoid contact with eyes, skin and clothing. Wash thoroughly after handling. Keep container tightly closed. Do not breathe vapors, mist or gas.

Storage
Further information on storage conditions: Keep from freezing - product stability may be affected. STIR WELL BEFORE USE.
Storage temperature: 1 - 49 °C (34 - 120 °F)

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure limit(s)
Exposure limits are listed below, if they exist.

Exposure controls
Engineering measures: Use local exhaust ventilation with a minimum capture velocity of 100 ft/min. (0.5 m/sec.) at the point of vapor evolution. Refer to the current edition of Industrial Ventilation: A Manual of Recommended Practice published by the American Conference of Governmental Industrial Hygienists for information on the design, installation, use, and maintenance of exhaust systems.

Protective measures: Facilities storing or utilizing this material should be equipped with an eyewash facility.

Individual protection measures

Eye/face protection: Safety glasses with side-shields. Eye protection worn must be compatible with respiratory protection system employed.

Skin protection
Hand protection: The glove(s) listed below may provide protection against permeation. (Gloves of other chemically resistant materials may not provide adequate protection): Neoprene gloves

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Form liquid clear
Colour Colorless to light purple
Odour Mild odor
pH 6.0 - 8.0
Melting point/range 0 °C (32 °F) Water
Boiling point/boiling range 100 °C (212.00 °F) Water
Flash point Noncombustible
Evaporation rate <1.00 Water
Lower explosion limit Not Applicable
Upper explosion limit Not Applicable
Vapour pressure 17.0 hPa at 20 °C (68.00 °F) Water
Relative vapour density <1.0 Water
Relative density no data available
Water solubility completely miscible
Auto-ignition temperature Not Applicable
Viscosity, dynamic no data available
Percent volatility 92 - 98 % Water

VOC's < 5 g/L

NOTE: The physical data presented above are typical values and should not be construed as a specification.

10. STABILITY AND REACTIVITY

Hazardous reactions None known.
Stable

Materials to avoid There are no known materials which are incompatible with this product.

Hazardous decomposition products There are no known hazardous decomposition products for this material.

Polymerisation Product will not undergo polymerization.
11. TOXICOLOGICAL INFORMATION

Toxicological information on this product or its components appear in this section when such data is available.

Acute oral toxicity   LD50 rat  > 2,000 mg/kg
Acute dermal toxicity  LD50 rat  > 2,000 mg/kg
Skin irritation   rabbit slight irritation
Eye irritation      rabbit slight irritation

Carcinogenicity: Not considered carcinogenic by NTP, IARC, and OSHA

12. ECOLOGICAL INFORMATION

Ecotoxicological information on this product or its components appear in this section when such data is available.

Ecotoxicity effects
Toxicity to fish   LC50 Rainbow trout (Oncorhynchus mykiss) 96 Hour OECD Test Guideline 203 or Equivalent 262 mg/l
Toxicity to algae   EC50 (cell density) Pseudokirchneriella subcapita 96 Hour 50 mg/l
Toxicity to algae   EC50 Pseudokirchneriella subcapitata (green algae) 96 Hour OECD Test Guideline 201 or Equivalent 94 mg/l
Toxicity to aquatic invertebrates   LC50 Daphnia magna 48 Hour OECD Test Guideline 202 or Equivalent 220 mg/l

13. DISPOSAL CONSIDERATIONS

Environmental precautions: CAUTION: Keep spills of product as supplied out of municipal sewers and open bodies of water. Do not discharge cleaning runoffs directly to open bodies of water.

Disposal
Waste Classification: When a decision is made to discard this material as supplied, it does not meet RCRA's characteristic definition of ignitability, corrosivity, or reactivity, and is not listed in 40 CFR 261.33. The toxicity characteristic (TC), however, has not been evaluated by the Toxicity Characteristic Leaching Procedure (TCLP).

For disposal, incinerate or landfill at a permitted facility in accordance with local, state, and federal regulations.
14. TRANSPORT INFORMATION

DOT

Not regulated for transport

Classification for SEA transport (IMO-IMDG):
Not regulated for transport

Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations.

15. REGULATORY INFORMATION

Workplace Classification
OSHA: This product is considered non-hazardous under the OSHA Hazard Communication Standard (29CFR1910.1200).

WHMIS: This product is not a 'controlled product' under the Canadian Workplace Hazardous Materials Information System (WHMIS).

SARA TITLE III: Section 311/312 Categorizations (40CFR370): This product is not a hazardous chemical under 29CFR 1910.1200, and therefore is not covered by Title III of SARA.

SARA TITLE III: Section 313 Information (40CFR372)
This product does not contain a chemical which is listed in Section 313 at or above de minimis concentrations.

CERCLA Information (40CFR302.4)
Releases of this material to air, land, or water are not reportable to the National Response Center under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) or to state and local emergency planning committees under the Superfund Amendments and Reauthorization Act (SARA) Title III Section 304.

United States TSCA Inventory (TSCA): All components of this product are in compliance with the inventory listing requirements of the U.S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

Pennsylvania
Any material listed as "Not Hazardous" in the CAS REG NO. column of SECTION 2, Composition/Information On Ingredients, of this MSDS is a trade secret under the provisions of the Pennsylvania Worker and Community Right-to-Know Act.

California (Proposition 65)
This product contains trace levels of a component or components known to the state of California to cause cancer:
Components: Dioxane 123-91-1
